

All That Matters Now

Words and Music: Graeme Connors

One breath
Makes the difference between
Reality and dreams
Life and death
All it takes is one breath

One kiss
Makes the difference to us
Between living and love
We can have this
All it takes is one kiss

Our lives
So fragile and yet
This love
Found us somehow
And I
I'm living each moment
Each moment with you
Is all that matters now

Instrumental...

One night
And the magic it brings
Can change everything
When the feeling's right
All it takes is one night

Our lives
So fragile and yet
This love
Found us somehow
And I
I'm living each moment
Each moment with you
Is all that matters now

Each moment with you
Is all that matters now
