

I've Got A Plan

David Bridie

I've got a plan
Let's take off in the blue station wagon
And find the open road to salvation
Away from here

I've got a plan
Change the patterns that I form a lot
Not try to be something that I'm not
That I'm not

I've got another plan, this time it will work
I've got another plan, this time it will work
Or I'll be struck down, struck down

Yeah I got a plan
I could start thinking more about you
And not just about the dumb things we do

I've got another plan, this time it will work
I've got another plan, this time it will work
Or I'll be struck down, struck down

There's endless talking here
It's not worth you wasting your while
Cause you say one thing in darkness
And another when it's light
And you end up without moving for the best part of three days

I've got a plan
How about we fly across the valleys at sundown
Then drink malt whiskey 'til the sun it comes back up again
Don't hold your head down when things get mediocre
It doesn't mean that they're half bad, they're bad

I've got another plan, this time it will work
I've got another plan, this time It will work
Or I'll be struck down, struck down
